Built to Change*

## ABOUT US

# Mywall

mywall is a contemporary glass demountable and relocatable system with laminate demising wall options. The aluminum extrusions and the intelligence of the system originates from a European partner company that has been involved with manufacturing and installing relocatable wall systems for over 70 years. mywall is trademarked for North America to build on their heritage and 7 decades of expertise. mywall stocks a large amount of inventory, performs fabrication and expertly installs all projects managed by finished carpenters.

Since 2016, mywall has installed 600+ projects across Canada including

- 1,100 linear feet for Regis (SPACES in Ottawa)
- 550 feet for General Motors in Oshawa
- 826 feet for BDO Montreal
- 450 feet for BDO Kelowna
- 1600 feet over 15 floors for I.Q Offices in downtown Toronto
- 1300 linear feet over 10 floors for WeWorks
- Double-Glazing project of 220 linear feet in Denver Colorado

mywall - a cost effective European designed, turnkey solution for all your wall requirements.

*Our most popular system*

- Profile width: 60mm
- STC: 34 to 44

DEMOUNTABLE • CONTEMPORARY • ARCHITECTURAL

mywall®

PRODUCTS

# H5T

*Our most popular system*

Available with vertical and  
horizontal faux surface mounted  
mullions

DEMOUNTABLE • CONTEMPORARY • ARCHITECTURAL

mywall®

## PRODUCTS

# HT

*Our slim profile solution*

- Minimalist slim-profile design
- Demountable & relocatable construction
- Modern glass wall performance
- Profile width: 34mm
- STC: 32 to 39

DEMOUNTABLE • CONTEMPORARY • ARCHITECTURAL

mywall®

## PRODUCTS

# HT

*Our slim profile solution*

Where architectural restraint is paramount, the HT system delivers. Its 34mm profile nearly disappears into the design, making it ideal for open, light-filled environments where structure shouldn't compete with space.
